Appendix & - Event Checklist Summary

Name of event:	Date of event:	

Preparing for your event checklist	Completed
Have you identified the event concept, including why, your goals and when?	
Have you identified the type and size of event?	
Do you have the ability to deliver the event? i.e. physically host or financial capabilities	
Has an event committee/subcommittees been established and specific roles and responsibilities been defined?	
Plan regular meetings leading up to your event.	
Event authorisation	
All relevant authorities for event authorisation identified.	
Appropriate paperwork submitted in required timeframes.	
Event budget	
Prepare an event budget.	
Investigate external funding or grant opportunities.	
Identify potential sponsors and prepare proposals and send out.	
Accessibility	
Have you considered and taken into consideration the needs of people with a disability? Some things to consider might include: Site set up Accessible toilets Stage or performer's platform accessible Seating and wheelchair spaces Hearing augmentation system Surfaces on paths, inside and outside the event and slip resistant Evacuation procedures taking into account of people with disabilities including people with sensory and mobility impairments Staff disability aware trained Staff made aware of allowing assistance dogs Accommodation that is accessible to clients What role do Public Address systems, flash lighting, strobes and other special effects play in your event and what impact can they have on the attendees? Are staff available to assist people with disabilities if self-service is an option? Some people with disabilities need to sit down. Seating also helps those who are talking to a person using a wheelchair so they do not have to constantly look up to engage in conversation. Is there room for everybody to manoeuvre safely between tables? Could some grassy areas be covered with materials that make mobility easier? Are cables secure and don't present a trip hazard? Car parking	

Venue and structures checklist	Completed
Event venue	
 When selecting your event venue have you considered the following: Services and facilities available on site Movement of people within the site Crowd regulation and overspill areas Access to site for patrons Access to site for emergency vehicles Hazards in and around the area Potential impact on the local environment Road access in wet weather Traffic flows/parking Provision for disabled people 	
Council parks and venues, private land and roads	
Have Council's Parks and/or Venues and Facilities been contacted to check availability of land/venue?	
Booking Form completed and submitted to Council.	
Event Application Form completed and lodged to Council.	
Deposit paid (pending on venue).	
Arranged to collect and return key.	
Do you have written permission from Council to hold the event?	
Do you have permission from the landowner?	
Power requirements	
Determine what type of power is required: three phase or single phase, how much power is needed and where your power sources are located for placement of leads.	
Have you considered any backup power contingency?	
Development assessment	
Some activities on Council land or private land requires approval under the <i>Planning Act 2016</i> . Have you checked whether your event requires approval?	
Temporary buildings and structures	
Some buildings and structures require a Development Permit for Building Work before they can be erected. Have your contacted Council's Development & Planning section?	
Some temporary furniture and structures will require a structural certificate.	

Site plan has been completed including: Access points incl vehicles (entrances and exits.) This is a very important component of event management – particularly if large crowds are expected and congestion can occur Emergency access routes First Aid Lighting equipment Marquees and stalls Other temporary structures Parking Staging Seating arrangements Information tent, security and police locations (as required) Approved liquor consumption areas Water access points Toilet facilities Rubbish bins Site plan has been distributed to relevant authorities. Risk management Have you carried out a risk assessment to make sure all the necessary health and safety measures are in place? Create a Risk Management Plan. Some things to consider are: Hazards/risks identified Contingency planning and advertising First aid provisions Emergency management Wet weather plans Are the entrances and exits controlled, suitable for all access and appropriately signed? Have you established how many people you are expecting? Are event staff/volunteers clearly identifiable? Are they adequately trained/informed? Have you developed a program? Have you developed a program? Have you considered the following in relation to queuing: Will the attendee know which queue to stand in? VIP queue? Tickets colour coded for different queues. Are different booths needed for different payment methods or prepaid? When will the queues form? Will they form at once or over a period of time? How can the perceived waiting time be reduced? e.g. queue for entertainers How many queues and possible bottlenecks will there be? Can your programming be staggered so that everyone is not leaving at the same time? Are there enough exits to disperse the crowd safely? Have you set up a reliable system of communication between key people?	Minimising risk checklist	Completed

Can your programming be staggered so that everyone is not leaving at the same time? Are there enough exits to disperse the crowd safely? Have you set up a reliable system of communication between key people? 	Have you carried out a risk assessment to make sure all the necessary health and safety measures are in place?	
established how many people you are expecting? Are event staff/volunteers clearly identifiable? Are they adequately trained/informed? Have you developed a program? Will the attendee know which queue to stand in? VIP queue? Tickets colour coded for different queues. Are different booths needed for different payment methods or prepaid? When will the queues form? Will they form at once or over a period of time? How can the perceived waiting time be reduced? e.g. queue for entertainers How many queues and possible bottlenecks will there be? Can your programming be staggered so that everyone is not leaving at the same time? Are there enough exits to disperse the crowd safely? Have you set up a reliable system of communication between key people?	 Contingency planning and advertising First aid provisions Emergency management 	
Have you developed a program? • Will the attendee know which queue to stand in? VIP queue? Tickets colour coded for different queues. • Are different booths needed for different payment methods or prepaid? • When will the queues form? Will they form at once or over a period of time? • How can the perceived waiting time be reduced? e.g. queue for entertainers • How many queues and possible bottlenecks will there be? • Can your programming be staggered so that everyone is not leaving at the same time? • Are there enough exits to disperse the crowd safely? Have you set up a reliable system of communication between key people?	Are the entrances and exits controlled, suitable for all access and appropriately signed? Have you established how many people you are expecting?	
Have you considered the following in relation to queuing: Will the attendee know which queue to stand in? VIP queue? Tickets colour coded for different queues. Are different booths needed for different payment methods or prepaid? When will the queues form? Will they form at once or over a period of time? How can the perceived waiting time be reduced? e.g. queue for entertainers How many queues and possible bottlenecks will there be? Can your programming be staggered so that everyone is not leaving at the same time? Are there enough exits to disperse the crowd safely? Have you set up a reliable system of communication between key people?	Are event staff/volunteers clearly identifiable? Are they adequately trained/informed?	
 Will the attendee know which queue to stand in? VIP queue? Tickets colour coded for different queues. Are different booths needed for different payment methods or prepaid? When will the queues form? Will they form at once or over a period of time? How can the perceived waiting time be reduced? e.g. queue for entertainers How many queues and possible bottlenecks will there be? Can your programming be staggered so that everyone is not leaving at the same time? Are there enough exits to disperse the crowd safely? Have you set up a reliable system of communication between key people?	Have you developed a program?	
Have you set up a reliable system of communication between key people?	queues. Are different booths needed for different payment methods or prepaid? When will the queues form? Will they form at once or over a period of time? How can the perceived waiting time be reduced? e.g. queue for entertainers How many queues and possible bottlenecks will there be? Can your programming be staggered so that everyone is not leaving at the same time?	
Have you set up a reliable system of communication with the audience?	Have you set up a reliable system of communication between key people?	
· · · · · · · · · · · · · · · · · · ·	Have you set up a reliable system of communication with the audience?	

Are crowd barriers necessary? Are emergency procedures in place and have these been relayed to the emergency services? Can emergency vehicles get on and off the site easily? Have you got adequate records of injuries/incidents for future reference?	
Can emergency vehicles get on and off the site easily?	
Have you got adequate records of injuries/incidents for future reference?	
Do you have effective fire measures in place?	П
Do you have adequate first aid facilities?	
Do you need any other special arrangements for lost children, lost property, drinking water, toilets, noise control or parking?	
Do you have an emergency plan?	
Have you designated a Health and Safety Officer? Are they undertaking a site inspection prior to and during the event?	
Do you have adequate money handling procedures and securities in place?	
Have all safety aspects been considered?	
Have adequate personnel greeters, crowd controllers, valet parking attendants, cloakroom space, ticket collectors and security been allocated?	
Is directional signage in place?	
Is there first aid/fire extinguisher readily available?	
Insurance	
Do you have insurance cover?	
Have all volunteers completed a registration form?	
Have all suppliers of goods or services provided a copy of their Certificate of Currency or quoted their current policy number and insurer?	
Have all stallholders completed a Stallholder Application Form?	
Have food vendors provided evidence of appropriate licences?	
Security	
 Have you considered the following security requirements? Security budget Is security required on entrances and areas on site? Security of the equipment before, during and after events Will you have cash onsite? Crowd control during the event Special security needs of VIPs, entertainers etc Integrating security with local police and emergency services Security time schedule and briefing time and place Sourcing and selection of security company 	
Communications system and backup Have you considered what your incident reporting method is and what your chain of command looks like?	

Have you taken into account the visibility and personal appearance of security staff?	
Contingency plan	
Has an alternative location been identified and booked?	
Is there a Medical Officer on site in case of emergency?	
Is there a list of phone contacts for emergencies – plumbing, power and telephone?	
In case of moving the event has a plan been developed on who does what and who contacts who?	
Public health and safety checklist	Completed
Licences and permits	
All relevant licenses and permits required have been identified.	
Some licence/permits to consider are: • Liquor Licence	
Fireworks Approvals	
Noise Management Permit	
Music Licence	
Has appropriate paperwork has been submitted in the required timeframe?	
Has Smoking Legislation been adhered to – signs ordered and designated smoking areas planned?	
Healthy Food Alternatives Checklist	
Identify all the food and drink options that will be provided at the event.	
Is there a range of healthy food options available at the event? Preferably at least 50% of the food provided should be a healthy option.	
Are healthy drink alternatives available at the event (including water)?	
Healthy food options are well promoted.	
Healthy food options are affordable and priced competitively.	
Have you identified food safety risks?	
Food licence requirements	
Contact Council's Health & Regulatory Services to discuss any specific licence.	
File a copy of the food vendors public liability cover.	
Provide a list of all stallholders' business names, food types and site locations at least three weeks prior to the event, to Council's Health & Regulatory Services.	
Have food vendors been advised (preferably in writing) of their responsibilities under the Food Act 2006? e.g. all stalls selling unpackaged food/drink must display a current:	
Mobile Food Licence issued by any Local Government within Queensland	
 Temporary Stall Food Licence issued by Bundaberg Regional Council; or Exempt from Licensing Notification issued by Council (e.g. all Not for Profit Groups) 	
Waste management checklist	Completed
Have you ordered additional rubbish bins from Council or organised private contractor?	Completed
Have you worked out where the bins will be located for maximum impact?	
Have you worked out where the bins will be located for maximum impact? Have you organised cleaning of the site after the event?	
nave you organised cleaning of the Site after the event?	

Traffic, transport and parking checklist	Completed
Traffic Management Plan	
Have you developed a Traffic Management Plan?	
Has the local fire brigade, ambulance and police station been liaised with and has Main Roads been liaised with (only required if Main Roads gazetted roads are affected)?	
Are all traffic controllers/marshals accredited to undertake the role?	
Have the needs of persons with disabilities been considered?	
Are the parking conditions acceptable for your event requirements?	
Is security required in the parking area?	
Do you require VIP parking and where will this be situated?	
Are parking attendants or SES required?	
Is the signage for parking clearly visible and adequate?	
Are road barriers required?	
Are turning circles and drop off points clear?	
Would a shuttle service alleviate parking problems?	
Is parking for attendees with special needs catered for?	
Are parking exit points clearly identified?	
Are staff/volunteers managing parking provided with uniforms and distribution/protective clothing and do they require communications – radio etc?	
Are parking tickets required?	
Is there adequate lighting in the parking area?	
Have all B-Double users been notified of the changed traffic conditions (at least four weeks prior to the event)?	
Has a final Traffic Management Plan been submitted to Council, Police and Department of Transport & Main Roads (if applicable)?	
Street march and/or parade	
Set up task force and committee. Confirm date and time.	
Consult Council & Qld Police prior to deciding to proceed.	
Consult with businesses/residents in the proposed event area.	
Apply to Council, Qld Police and Department of Transport & Main Roads (if applicable) at least 6 weeks prior to your event. Traffic Management Plan designed by suitably qualified persons is required to be submitted with application.	
Engage suitably qualified persons to produce Traffic Management Plan and undertake closure.	
Traffic Management Plan submitted to all relevant parties.	
Traffic Management Plan sent to Police, Fire, Ambulance and Security (2 weeks prior to event).	
Advice of road closures/reduction in speed been placed in the newspaper/online news prior to the event. (48 hours prior to event)	
Has a copy of the road closure permit been received from Council, Bundaberg Police and Department of Main Roads (if applicable)?	

Notify businesses/residents and emergency services of proposed event/road closures.	
List of participants and order for parade developed.	
Safety information distributed to participants.	
Assembly and disassembly areas secured, marked out and equipped.	
Staff requirements identified, trained and uniformed.	
On-site communications check – handhelds, mobile phones, loud hailers, sound system.	
Briefing times established.	
Contingency plan developed.	
Signage checklist	Completed
Are the entrances and exits clearly marked?	
Have you considered smoking area signage and locations?	
Signage for events on public land or roads may need a permit.	
Contact Department of Transport & Main Roads for permit requirements for signage on Main Roads.	
Would directional signage at the event make it easier for the public?	
Have you considered carpark signage?	
Marketing checklist	Completed
Event promotion	
Have you identified where you will promote your event?	
Have you completed the Community Notices Form for various media and submitted it?	
Have you provided the Community Development office with a flyer for the CBD Noticeboard?	
Have you booked the banner space for Salter Oval?	
Have you submitted your event listing on Council's What's on Bundaberg website?	
	_
Post-event checklist	Completed
Post-event checklist Human resources	Completed
	Completed
Human resources Have all entertainment/guest speakers/staff players/contractors been farewelled appropriately	Completed
Human resources Have all entertainment/guest speakers/staff players/contractors been farewelled appropriately and who is responsible for this?	Completed
Human resources Have all entertainment/guest speakers/staff players/contractors been farewelled appropriately and who is responsible for this? Have all payments been made?	Completed
Human resources Have all entertainment/guest speakers/staff players/contractors been farewelled appropriately and who is responsible for this? Have all payments been made? Have all thank you letters/awards/recommendations been sent? Have you held your debrief? Evaluation is useless if is not used to improve the event for the next	Completed
Human resources Have all entertainment/guest speakers/staff players/contractors been farewelled appropriately and who is responsible for this? Have all payments been made? Have all thank you letters/awards/recommendations been sent? Have you held your debrief? Evaluation is useless if is not used to improve the event for the next year so make sure it is part of your first meeting back.	Completed
Human resources Have all entertainment/guest speakers/staff players/contractors been farewelled appropriately and who is responsible for this? Have all payments been made? Have all thank you letters/awards/recommendations been sent? Have you held your debrief? Evaluation is useless if is not used to improve the event for the next year so make sure it is part of your first meeting back. Have all reports and feedback sheets been submitted by the volunteers?	
Human resources Have all entertainment/guest speakers/staff players/contractors been farewelled appropriately and who is responsible for this? Have all payments been made? Have all thank you letters/awards/recommendations been sent? Have you held your debrief? Evaluation is useless if is not used to improve the event for the next year so make sure it is part of your first meeting back. Have all reports and feedback sheets been submitted by the volunteers? After party – reward your staff and volunteers and pat yourselves on the back.	Completed

Has waste removal been organised?	
Ensure that emergency access is kept clear throughout shutdown.	
Have all storage areas been cleaned?	
Have all display materials and any temporary fittings been removed?	
Parking – remove signage and barriers and clear site of all attendee's vehicles.	
Security – has the venue been locked up?	
Have the sponsors got access to remove banners?	
Contract acquittal – check all clauses in particular payment times, cleaning and repair, collection of equipment.	
Finalise and audit accounts – best done as soon after the event as possible – the following day or week.	
Equipment shutdown	
Have you developed a bump out schedule including correct exits and loading docks?	
Do you need specialist staff to shut down equipment (e.g. computers)?	
How long after the event do you have access to the venue?	
Is there a cut-off time for utilities and power?	
Is there anything that needs cleaning and repairing?	
Do you have a consistent storage system – number of boxes and display contents list?	
What small equipment (e.g. handsets) need to be returned and signed off?	
What is the schedule for dismantling barricades?	
Marketing and promotion wrap up	
Is there video evidence and has it been stored where appropriate?	
Have all press clippings/video news been collected and saved on file?	
Have all reviews of the event been saved on file?	
Have you reviewed your website – photos of event, what's happening next, "missed our festival – don't miss the next one – join our email list"?	
Liability shutdown	
Have all incident reports been completed and submitted for file and staff debriefing?	
Have photos been taken and saved on file where appropriate?	
Sponsors and grants wrap up	
Have all grants been acquitted? Don't be placed on the D list!	
Is it appropriate to meet sponsors and ask them for feedback?	
Have you sent letters to thank and acknowledge them for their services?	
Have reports been sent to Council and other government organisations?	

Required event documentation	Completed
Event Management Plan Prepare an Event Management Plan detailing all components of the event	
 Traffic Management Plan Prepare a written Traffic Management Plan outlining how you are going to manage traffic and pedestrians pre, during and post your event. This plan should cover off on signage, parking, pedestrian, impact on public transport services and emergency services, promotion of alternate transport etc. Road Closures require their own Traffic Management Plan prepared by a suitably qualified person. 	
 Risk Management Plan Prepare a detailed Risk Management Plan including identification and assessment of risks associated with the event, contingency planning and advertising, first aid provisions, emergency management, weather plans etc. 	
 Site Plan Prepare a Site Plan including all structures (marquees, stages, market stalls, food vendors, toilets, bar, waste facilities), show where power is located, food vendors with gas or cooking appliances, fencing, entrance and exits, parking locations, fixed structures such as amenities etc. 	
 Emergency Evacuation Plan/Fire Safety Management Plan Prepare a written Emergency/Fire Management Plan including a site map showing evacuation routes, entry and exit points and access for emergency services. 	
 Waste Management Plan Prepare a written Waste Management Plan including provisions of waste and recycling bins, details of pre, during and post event clean up and rubbish removal, regular toilet cleaning and replenishing during the event, regular cleaning of venue during event etc. 	
 Noise Management Plan Prepare a written Noise Management Plan which includes a site plan indicating stage plan, orientation of stages including speakers, PA systems, amenities, facilities and location of potentially noise affected premises. Advise hours of operation of your event, how community and neighbouring properties will be notified and all potential sources of noise nuisance, steps that will be taken to minimise the risk of noise, details of acoustic monitoring during the event and how complaints received before, during and after the event will be addressed.
